Horizon Millau  Our book is an pleasant way to know us better and to in-form you of all our activities: Office instructor , specialized store, declared youth and Sports  and workshop. Located in the heart of the city centre.
Paragliding tandem flight in Millau, the baptism flight allows to discover paragliding. Walking distance to take off, then sitting comfortably in front of your monitor, go over to Millau and the regional park of Grands Causses. Accessible at any age and in any season, come and discover the magic of free flight for unforgettable memories.
Tandem paragliding flight Our team of qualified instructors of State offers 3 types of tandem flights. These flights take place on one of the four sites of Millau and its surroundings. the place of take-off is chosen depending on the direction and strength of the wind.

**Discovery Flight** This tandem flight is offered in the morning, when the aerological conditions are particularly quiet. This discovered flight is pretty short, this formula is particularly suitable to children and to those who apprehend the activity.

**Pleasure flight** This tandem flight is offered in the afternoon and late afternoon when the aerological conditions are stronger. Dynamic or thermal conditions allow your instructor to a longer flight (15-20 minutes) and gain altitude. It is the most often requested.

**Duration flight** The thermal conditions of the afternoon allow your monitor to take you for a flight’s duration. Take flight along the reliefs of Millau, altitude and enjoy a longer flight (30-45 minute flight): for those who want more.

**Handicare option** Our instructors are trained and qualified to accommodate people with reduced mobility to perform a baptism in tandem with a specific chair for flight. Please contact us (depending on the aerological conditions and the flying site).

Initiation

Training period

Millau is one of the main sites of free flight in France. The proximity and abundance of sights make it a privileged place for learning paragliding. Two methods of learning: theoretical course and practical sessions. Two or more first solo flights make it a privileged place for learning paragliding. **Discovery method** Paragliding has become an open activity to the largest number. The morning begins with a meeting in slope school, presentation of the wing of its benchmarks, floor work, place and inflations of the wing in a first time and small jumps of slope, late morning... Followed by a pedagogical tandem flying to the side of your instructor, with possibility for the student of piloting in double commands.

**Classic course** On all the courses, this is perhaps the most unforgettable... you are going to live this unique moment: flying solo. But before: learning from the manipulation of the wing on the ground sloping school the first 3 mornings. The last two mornings of courses are devoted to the great solo flights with radio guide.

**Tandem teaching** The tandem flight is an effective way to learn the basics of steering and progression, whatever your practice level. Being nearby your monitor in private lesson, controlling the wing, technical and self-confidence development.
Green to blue Level A stage of development level 1 and 5 teaching sessions or free choice according to your level of practice and your availability. Theoretical inputs are provided throughout the training classroom courses or on the ground.
**Development paragliding** French labelled free flight school, patented state instructor, material adapted and renewed each season. Innovative pedagogy - friendly home.

**Perfection course** To acquire autonomy in calm conditions on known sites and get initial pilot licence. After a “resumed” meeting in slope school, duration flights occur on the major sites of Millau. Exercises in flights, work on take-offs, catches field landing, discovery of the pitch, roll, “ears”... and of course the solo flights pleasure in calm conditions.

**Free choice sessions** Free choice session in half or full day to perfect, depending on your level of practice or for a resumption of activity paragliding.

**Package pilot** To become an independent and responsible pilot. The package pilot is a complete formula with its 20 teaching sessions to obtain the pilot certificate. This schedule included:

- ✓ 5 sessions in slope school
- ✓ 7 flights on morning sessions
- ✓ 6 sessions on evening flights
- ✓ 2 educational tandem flights

Causses caving

A half-day initiation, to discover an horizontal cavity or a whole day sporting or technical, let your guided by our qualified and experienced instructors team.

www.horizon-millau.com
Causses speleology  Millau and the Grands Causses have many cavities of all levels. Speleology remain an open activity open to all audiences.

Discovery caving  Approximately two hours of exploration in an horizontal cavity section without verticality. Only few kilometers from Millau for this first approach of caving. A first exploration of the Causse underground world, equipped with a technical suit and a lighting leds helmet.

Sport caving  An half day exploration in a horizontal profile cavity without verticality, with technicals crossings: abseiling, climbing, scale ascent. Some nice caves to explore, due to the underground rivers which shaped galleries and mineral formations from another world.

High vertical  Object: -100 metres depth... exploration of the abyss with technical notions of abseiling up and down. Guaranteed atmosphere! Ferns, daylight, magic echo.

(group rate from 5 pers)                      Indiv. Grp.
Discovery caving                      33€ - 30€
Sport caving                          45€ - 42€
High vertical, for regulars only      80€ - 75€

DAY OF ACTIVITY
✓ sports or hiking shoes
✓ warms clothes (preferably used)
✓ meeting place depending on location
✓ water and energy bars
Canyoning consists in following a river bed located in a mineral environment with, according to the canyon, jumping, sliding, swimming or abseiling... Choice a discovery canyon or a sportier canyon.
Canyoning Cévennes From 10-12 years old, depending of the kind of canyon. Canyons are open from May to September, according to the current legislation...

Haute Dourbie - Tayrac  
Aquatic hike is one of the first approach to whitewater. A canyon (River of the Tayrac or Mourier, 40 kms from Millau) without technical rope, with naturals slides and jumps. Equipped of a wetsuit and a helmet, let you slide on aquatic tobbagan, link up small jumps... up to 8 meters for the more adventurous! (optionals jumps).

Gorges of the Bramabiau  
A canyon in two steps: first part in hiking on the water, followed by a rank of vertical crossing. Equipment income with a harness, lanyards and descender. You cross the waterfalls, abseiling, tobogganing or jumping... the activity begin with an introduction on the banks and safety instruction reminder.

Gorges of the Tapoul  
Abseil Cevennes waterfalls, in the Gorges of the Tapoul. During the day, we invite you to taste the pleasures of the whitewater... Jumping, swimming, water sliding...3 hours of slope in a course at an hour’s drive of Millau.

Via Ferrata  Born in the Dolomites in Italy, many via ferrata’s routes were created in Europe. Right now, Millau has two of them, one in the Dourbie Gorges and the second one is at the entrance of the Gorges du Tarn. Progress on a cliff-side in sport and play activity course. The via ferrata activity is between climbing and hiking.
**Via Ferrata** Progress on a cliffside in sporting and play activity course. The via ferrata activity is between climbing and hiking. Discover the two via ferrata of our region with a guide or alone.

**Via Boffi** Two circuits for this via ferrata located 15 mn from Millau, on the Causse Noir: a yellow and red course. Activity begin with a hike (walking) from the Causse to dive quickly on the cliffs of the Dourbie Gorge. Very pretty via, quite upright with outlook over Millau and its work of art, the Millau Viaduct. From 2 to 3 hrs of activity, according to the participant level.

**Via Liaucous** Located 15-20 minutes. Millau, on the road to Le Rozier, at the gateway of the Gorges of the Tarn and Jonte. The activity begin with a hike on the side of the Causse. 2 courses possibles: blue and red (the Red remains more physical, overflow ways !). On the top of the course a beautiful tyrolean ispassable... Wonderful spot in a beautiful chaos of limestone (ruiniform laps). From 3 to 4 hrs, according to the participant level.

**Giant optional abseiling** Even more sensations... with the abseiling’s option (over 50 m) situated at the end of the via ferrata.
