Paragliding Tandem Flight in Millau The baptism flight allows to discover paragliding. Walking distance to take off, then sitting comfortably in front of your monitor, go over to Millau and the regional park of Grands Causses. Accessible at any age and in any season, come and discover the magic of free flight for unforgettable memories.
Tandem Paragliding Flight  Our team of qualified instructors of State offers 3 types of tandem flights. These flights take place on one of the four sites of Millau and its surroundings. the place of take-off is chosen depending on the direction and strength of the wind.

Discovery Flight  This tandem flight is offered in the morning, when the aerological conditions are particularly quiet. This discovered flight is pretty short, this formula is particularly suitable to children and to those who apprehend the activity.

Pleasure Flight  This tandem flight is offered in the afternoon and late afternoon when the aerological conditions are stronger. Dynamic or thermal conditions allow your instructor to a longer flight (15-20 minutes) and gain altitude. It is the most often requested.

Duration Flight  The thermal conditions of the afternoon allow your monitor to take you for a flight's duration. Take flight along the reliefs of Millau, altitude and enjoy a longer flight (40-60 minute flight): for those who want more.

Handicar Option  Our instructors are trained and qualified to accommodate people with reduced mobility to perform a baptism in tandem with a specific chair for fligh. Please contact us (depending on the aerological conditions and the flying site).

Initiation Training Period Millau is one of the main sites of free flight in France. The proximity and abundance of sights make it a privileged place for learning paragliding. Two methods of learning with practical sessions, course theoretical to discover, understand and realized one or more great first flight solo, in calm conditions.
Paragliding Initiation labelled French flight school, state’s certified instructors, adapted equipment and renewed each season. Innovative pedagogy - friendly reception.

**Discovery Method** Paragliding has become an open activity to the largest number. The morning begins with a meeting in slope school, presentation of the wing of its benchmarks, floor work, place and inflations of the wing in a first time and small jumps of slope, late morning... Followed by a pedagogical tandem flying to the side of your instructor, with possibility for the student of pilotage in double commands.

**Classic Course** On all the courses, this is perhaps the most unforgettable... you are going to live this unique moment: flying solo. But before: learning from the manipulation of the wing on the ground slopeing school the first 3 mornings. The last two mornings of courses are devoted to the great solo flights with radio guide.

**Tandem Teaching** The tandem flight is an effective way to learn the basics of steering and progression, whatever your practice level. Being nearby your monitor in private lesson, controlling the wing, technical and self-confidence development.

Causses Caving

an half-day initiation, to discover an horizontal cavity or a whole day sporting or technical, let your guided by our qualified and experienced instructors team.
Causses Speleology  Millau and the Grands Causses have many cavities of all levels. Speleology remain an open activity open to all audiences.

Discovery Caving  Approximately two hours of exploration in an horizontal cavity section without verticality. Only a few kilometers from Millau for this first approach of caving. A first exploration of the Causse underground world, equipped with a technical suit and a lighting led helmet.

Sport Caving  An half day exploration in a horizontal profile cavity without verticality, with technical crossings : abseiling, climbing, scale ascent. Some nice caves to explore, due to the underground rivers which shaped galleries and mineral formations from another world.

High Vertical  Object : -100 metres depth... exploration of the abyss with technical notions of abseiling up and down. Guaranteed atmosphere! Ferns, daylight, magic echo.

Via Ferrata  Born in the Dolomites in Italy, many via ferrata's routes were created in Europe. Right now, Millau has two of them, one in the Dourbie Gorges and the second one is at the entrance of the Gorges du Tarn. Progress on a cliff-side in sport and play activity course. The via ferrata activity is between climbing and hiking.
Via Ferrata Progress on a cliffside in sporting and play activity course. The via ferrata activity is between climbing and hiking. Discover the two via ferrata of our region with a guide or alone.

Via Boffi Two circuits for this via ferrata located 15 mn from Millau, on the Causse Noir: a yellow and red course. Activity begin with a hike (walking) from the Causse to dive quickly on the cliffs of the Dourbie Gorge. Very pretty via, quite upright with outlook over Millau and its work of art, the Millau Viaduct. From 2 to 3 hrs of activity, according to the participant level.

Via Liaucous Located 15-20 minutes. Millau, on the road to Le Rozier, at the gateway of the Gorges of the Tarn and Jonte. The activity begin with a hike on the side of the Causse. 2 courses possibles: blue and red (the Red remains more physical, overflow ways !). On the top of the course a beautiful tyrolean is passable... Wonderful spot in a beautiful chaos of limestone (ruiniform laps). From 3 to 4 hrs, according to the participant level.
